

16th Edition of the QUALICOAT Specifications – Update Sheet – SPEC-US13

Subject: Revised list of critical colours for class 3 powder coatings

Proposal/Request: **Powders WG (24.02.20)**
The Powders WG supported the sub WG's proposal to include all blue, green and red colours to the list of critical colours for class 3.

QUALICOAT resolutions: **Resolution No. 6/TC 04.06.20**
The TC approved the Powders WG's Proposals Nos. 5 and 6/POWDERS/2020-02 and asked the EC to ratify Update Sheet No. 13 (Revision of the list of critical colours for class 3 powder coatings) prepared by the "Class 3" sub-WG.

Valid from: 1 January 2021

Amendments to the Specifications:

- Basic colours RAL 5012 replaced by RAL 1011 to be tested instead of RAL 5012 for the approval of class 3 lightness category medium (section 4.1.4.1)
- Revised Appendix A11 (Section 3 – Critical colours and classification of RAL families for class 3)

Author: Specifications WG

Document Code: SPEC-US13
QQM Section: 7.8.2
Date Approved: 25.06.2020
Approved by: EC
Valid from: 01.01.2021
Version: 01
No. of Pages: 5

4.1.4 Basic colours to be tested for standard approvals and metallic extension

4.1.4.1 Standards approvals

[...]

Class 3

The following RAL colours shall be tested:

[...]

- Lightness category MEDIUM

~~— RAL 5012~~ RAL 1011

- RAL 7040
- RAL 8024

[...]

A11 – RAL families and critical colours

[...]

3. Critical colours and classification of RAL families for class 3

~~15~~ 9 groups of homogeneous colours (solid colours of a similar hue and shade) have been defined as RAL families for the renewal of class 3 approvals.

3 RAL families match lightness category LIGHT (CIELAB L* > 70), ~~6~~ 3 match lightness category MEDIUM (CIELAB L* between 40 and 70), and ~~6~~ 3 match lightness category DARK ((CIELAB L* < 40).

QUALICOAT has excluded ~~62~~ 114 **critical RAL colours**, which, as powder coating technology stands today, do not have sufficient resistance to colour change after 10 years of outdoor exposure.
